

The image shows a deep-field view of the universe filled with distant galaxies. A central region is highlighted with a semi-transparent purple rectangle. Inside this rectangle, a bright blue star-like object is visible. A red, diffuse, cloud-like structure is centered on the blue object. The text 'CMB' is at the top, 'SZ' is in the center of the red cloud, and two red question marks are on either side of the 'SZ' text.

CMB

? SZ ?
